/em9023.pdf](https://catalog.extension.oregonstate.edu/sites/catalog/files/project/pdf/em9023.pdf)

CONTENTS

Chapter 1	
Understanding and Managing Risk.....	3
<i>Richard E. Miller and Thomas A. Terry</i>	
Chapter 2	
Soil Characteristics That Affect	
Productivity and Influence Best	
Management Practices.....	5
<i>Darlene Zabowski and Sam D. Angima</i>	
Chapter 3	
Soil Survey Information for	
Forestland Managers/Management	
of Soil Erosion	10
<i>Steve Campbell</i>	
Chapter 4	
Managing Mass-Wasting Risk When	
Conducting Forest Practices	12
<i>Jeffrey D. Grizzel</i>	
Chapter 5	
Managing Soil Disturbance	18
<i>Ronald L. Heninger, William Scott,</i>	
<i>Alex Dobkowski, and Thomas A. Terry</i>	
Chapter 6	
Maintaining Adequate Nutrient Supply—	
Principles, Decision-Support Tools,	
and Best Management Practices.....	33
<i>Robert B. Harrison, Douglas A. Maguire,</i>	
<i>and Deborah Page-Dumroese</i>	

Question from Sam Angima (Assistant Dean for Outreach and Engagement, OSU College of Agricultural Sciences):

Is the publication out-of-date and should it still be posted?

My Response:

- **Publication continues to be read often.**
- **Recommended that it remain posted on-line.**
 - **Sam indicated publication will continue to be posted for 4 years**
- **Check with NWFSC to determine if they would like to update the publication or have a workshop publication on another topic or set of topics.**

Does the NWFSC want to publish another online meeting proceedings?

Pros and Cons:

What topic or topics do you suggest for consideration?
